

PR008 - City Code Maintenance Screen

The screenshot shows the 'City Code Maintenance Screen (PR008)' window. At the top, there is a 'CODE' field with the value '02' and a dropdown menu showing 'AK ALASKA'. Below this is a table with four columns: 'CITY CODE', 'DESCRIPTION', 'ACTIVE?', and 'STATUS DATE'. The table lists various city codes for Alaska, all of which are active and have a status date of '03-DEC-1995'.

CITY CODE	DESCRIPTION	ACTIVE?	STATUS DATE
00100	ADAK ISLAND	<input checked="" type="checkbox"/>	03-DEC-1995
00210	ADAK NAVAL SECURITY GROUP	<input checked="" type="checkbox"/>	03-DEC-1995
00320	ADAK (NAVAL) STATION/MITCH	<input checked="" type="checkbox"/>	03-DEC-1995
00430	AFOGHAK (ANV)	<input checked="" type="checkbox"/>	03-DEC-1995
00540	AGUIKCHUK	<input checked="" type="checkbox"/>	03-DEC-1995
00650	AKHOK	<input checked="" type="checkbox"/>	03-DEC-1995
00655	AKHOK (ANV)	<input checked="" type="checkbox"/>	03-DEC-1995
00765	AKIACHAK (ANV)	<input checked="" type="checkbox"/>	03-DEC-1995
00870	AKIAK	<input checked="" type="checkbox"/>	03-DEC-1995
00875	AKIAK (ANV)	<input checked="" type="checkbox"/>	03-DEC-1995
00980	AKOLMIUT (INCLUDES NUNAPIT	<input checked="" type="checkbox"/>	03-DEC-1995
01020	AKULURAK	<input checked="" type="checkbox"/>	03-DEC-1995
01050	AKUMSUK	<input checked="" type="checkbox"/>	03-DEC-1995
01090	AKUTAH	<input checked="" type="checkbox"/>	03-DEC-1995
01095	AKUTAH (ANV)	<input checked="" type="checkbox"/>	03-DEC-1995
01150	ALAGAHK	<input checked="" type="checkbox"/>	03-DEC-1995

Introduction

This procedure describes how to set up and maintain the valid city codes for each state or country code. The city code data is entered via the CSPS "City Code Maintenance Screen" (PR008).

Field Name	Description	Attributes	Derivation Source	Query Field	Mapping
CODE	This field contains the state or country code. Next to the code is a description of the state/country the code represents.	Derived	System generated	Y	N
CITY CODE	This field contains the city code for the state or country listed in the CODE field.	Derived	System generated	Y	N
DESCRIPTION	This field contains the name of the city for each city code. Existing descriptions can be modified and new descriptions for new city codes can be created.	Derived	System generated	Y	N

Field Name	Description	Attributes	Derivation Source	Query Field	Mapping
ACTIVE ?	This check box indicates the status code of the associated city. If checked, the city and the associated state/country may be used anywhere in the system where a city and state/country are required.	Derived	System generated	N	N
STATUS DATE	This field lists the date of the last modification of the record.	Derived	System generated	N	N
